

## OPFCC FLYTIPPING GRANT –APPLICATION CHECKLIST

As part of your submission, you are required to submit an application form along with supporting information and documents. Failure to include all the required documentation may result in your application being delayed or rejected. It is therefore in the best interest of the landowner applying to submit as much information, with as much detail as possible in order for your application to be considered.

### **Essential documentation to be included in your grant application :**

Completed application form – including exact location, details of previous fly tips, total cost of removal and amount being requested from the grant fund, assessment of potential target hardening methods where possible, including total costs and amount being requested from grant fund.	
Photographs of the fly tips (see guidance notes for more information)	
Quotes from VAT and Environment Agency registered waste removal companies (if cost is under £500 one quote will be required. Any removal which will cost in excess of £500 will require 2 or more quotes). For advice about local waste removal companies, please speak to the local authority representative or search the Environment Agency register <a href="https://environment.data.gov.uk/public-register/view/search-waste-carriers-brokers">https://environment.data.gov.uk/public-register/view/search-waste-carriers-brokers</a> .	
Signed consent for details of your involvement in the project to be used for press articles when the Local Authority and OPFCC are evaluating and reporting on the successes of the project.
