

## Village Halls Week 2021

**Village Halls Week** starts on Monday, 25<sup>th</sup> January. This year it's a very special celebration because not only is it the ACRE Network's centenary year it's also our **75<sup>th</sup> birthday**. Northamptonshire ACRE was founded in 1946 and it's been our privilege to support village halls and their rural communities ever since. So, to mark this noteworthy year, we (working with National ACRE) have organised a packed schedule of events to celebrate Village Halls Week.

### Domesday Book

National ACRE has created a Domesday Book for village halls to sign and record a century of rural community action. Use your entry to talk about what you're doing, the difference you make to your community and your hopes and plans for the future. This is a great opportunity to showcase your work alongside community halls from across England.
